# GENERAL INFORMATION

## INSTRUCTIONS TO SUBSCRIBERS

**Get Number from latest Directory.** Do not trust to memory. Destroy all previous books.

**Remove the Receiver** from the hook, taking care not to jiggle hook in doing so. If hook is jiggled up and down accidentally, depress the hook about one second and begin again.

**The Dial Tone**, like the ticking of a clock, should be heard in your receiver. (Unless you hear the Dial Tone it is useless to operate the Dial. Hang receiver on the hook and wait a few seconds.)

**Dial the Number** as follows: Suppose the number is 432. Insert the finger in 4th hole of the Dial and turn the wheel until the finger comes against stop at bottom. Then remove the finger and allow the dial wheel to rotate back of its own accord. Next pull the 3 and the 2 in similar manner. Never use a pencil or other instrument for Dialing. Pull the figures as fast as you like, but do not retard or hurry the Dial wheel in its backward rotation.

**The Busy Tone.** As soon as the last figure of the number has been dialed, if the line you are calling is busy, you will hear at once a distinctive intermittent tone or "Busy Signal." This means that the phone you are calling is busy; and in rare instances it may mean that all trunks leading to this line are busy. Do not wait, but hang up the receiver and try later.

**The Ringing Tone.** If the line is not busy, the party you are calling receives a half second ring every three seconds until he answers or until you hang up. You will hear the reverting Ringing Tone in your receiver.

**The Re-Call.** If after you have called for one party you wish to call another depress the receiver hook long enough to say "one thousand and one." No further waiting is necessary.

**Mistakes**—If you find you have made any mistake in operating the dial depress the receiver hook for a second and begin over again.

**Rural Subscribers** must be sure to give the number of the telephone desired. The operators are authorized not to make connections by name.

**Information.** Dial 8 when you wish to know a new telephone number not listed in the directory, or to report any trouble with your telephone or failure to make connections. Try to be specific in your explanation of the trouble.

**Test Your Line** by calling your own number. If you do not get the Busy signal, it is an indication that something is wrong. Try twice.

**Reverting Calls.** To call a party who is on your own line, do not use the number in the Directory, but refer to your special card. Then dial the special number and hang up your receiver. When your bell stops ringing the party has answered. Take off your receiver and talk. To stop your bell from ringing if the party does not answer, lift your receiver for a second.

The length of conversation should in no case exceed five minutes, but you are requested to make it as brief as possible. Some one on your line may be waiting to make an emergency call.

The use of telephone is limited to the subscriber, his family or employees who may allow non-subscribers to use it for talking over toll lines only, and in such case the subscriber will be held responsible for charges.

No instrument or apparatus of any kind not furnished by the Telephone Company shall be attached to its lines or instruments. The Company shall have the right to remove any such attachments or discontinue the service.

The Telephone Company reserves the right to change numbers assigned to subscribers as the needs of its business may require.

This company assumes no responsibilities in the transmission or delivery of oral or written messages. Any person or employee assisting in communication of that character, does so in his or her individual capacity as the agent of the person desiring it.

This directory is the property of the Telephone Company, and the company assumes no liability for damage arising from errors or omissions in compiling its directory.

The forecasts of the U. S. WEATHER BUREAU are received by wire daily at 11 a. m. Patrons may get the Forecasts by calling "INFORMATION," No. 8.

## In case of Fire Dial 321, Fire Station

J. A. GREEN, Pres.

J. L. SINK, Supt.

J. F. HAYDEN, Mgr., Sec. & Treas.

# Thomasville Telephone Company

For new members not listed in directory and for changes, call "Information," No. 8. For reporting trouble or unsatisfactory service, call "Information," No. 8. To call "Long Distance" dial 0. To call "Rural" operator, dial 9. For further information read page 1.

**Y****Instructions in Regard to Long Distance Service**

Tolls for all long-line conversations, by whomsoever made, will be charged to the Subscriber at whose station they originate. Subscribers to protect themselves from loss, must see that no use unauthorized by them, is made of their Telephone.

**Telephone Rates for Service, Listings, Etc.**

(All Rates are Payable in Advance)

Business telephone, special line, \$3.75; duplex line, \$3.00.

Residence telephone, special line, \$2.25; selective 4-party line, \$1.50.

Desk telephone sets 25c extra.

(For the above service in suburbs outside city limits add 50c to special line rates and 25c to party rates.)

Extension telephones, business 75, residence 50c. Extension Bell 25c.

Extension telephone with Dial, 25c extra.

Extra listings in Directory, \$1.00 per year; extra user, \$6.00 per year.

Service connection charge for installing a telephone (or an extension phone), \$3.50.

Service connection charge where telephone is already in place in subscribers' premises, \$1.50.

Charge for moving a telephone set to another location on same premises, \$3.00; to a different premises, \$3.50.

The charge for moving other equipment or wiring is based on cost of labor and material.
